

Vancouver iTech Preparatory

Our STEM Focus

Vancouver iTech Preparatory is a STEM-focused program for students in grades 6-12. Our program combines science, technology, engineering and math with liberal arts by integrating art and design principles into research and project-based learning.

Our teachers recognize that creativity is a cornerstone of every scientific breakthrough. We foster curiosity and cultivate critical and creative thinking in an environment where the problem-solving journey is just as important as the final achievement.

In addition to our robust STEM curriculum, all students at iTech will take four years of Spanish, enriching their global perspectives and communication skills.

Early College Model

iTech offers an early college model, empowering students to take college-level classes as early as the ninth grade. Through partnerships with Clark College and WSU-Vancouver, students can get a head start on their college education. This unique opportunity opens doors to higher learning and career pathways well before graduation.
