# Jump Rope Information

WHAT IS JUMP ROPE?

We are excited to announce that we have found a reporting tool to replace Skyward that will allow us to better communicate student progress in our current grading system. Beginning second semester you will use the new tool called "Jump Rope" to access student grade information. Skyward will no longer be used for communicating grades. This is NOT a new grading system, we are continuing with the same system. This new reporting tool will allow students and parents to better understand student performance in each standard and allow better partnerships between teachers, parents and students to better support the learning!

Here is a sample of how Jump Rope will report grades
