

YOUNG ARCHITECTS DESIGN CAMP

Young Architects Design Camp is a program developed to cultivate creativity and exploration in elementary aged children. By placing an emphasis on design-based thinking, imagination, teamwork, and fun, the camp aspires to mold the problem solvers and creative leaders of tomorrow. Each week revolves around a unique central theme that informs a week-long project that culminates in an art walk where campers present their designs. Although the camp emphasizes drawing and building, we do not hesitate to get outside and play a bit too.
